I heard it's going so well  
I heard it's going so well  
Inside it's hard to tell  
I heard it's going so well

Spending time to assure yourself  
Being told that it's not real  
Is it sometimes ways to wake you up?  
Or is it just to make you feel?

I heard it's going so well  
I heard it's going so well  
Inside it's hard to tell  
I heard it's going so well

Speaking softly doesn't get you heard  
Isn't right but isn't wrong  
Feeding habits just to face the day  
Mending hearts, the copy sealed again

I heard it's going so well  
I heard it's going so well  
Inside it's hard to tell  
I heard it's going so well

We can't wait cause we'll get bored  
We'll get bored  
We can't wait cause we'll get bored  
We'll get bored  
We can't wait cause we'll get bored  
We'll get bored  
(Turn the other way, turn the other way)  
We can't wait cause we'll get bored  
We'll get bored  
(Turn the other way, turn the other way)
