Hit me

Take good care of me
Take good care of your self
Please don't let me be
A number on your shelf

Baby show the way
The way up to your door
Oh baby, c'mon now and

Hit me
Hit me
Hit me with your light and love

Don't you say you don't
Don't wanna walk along
Don't you say you wont
Love me till the day i'm gone

Baby show the way
The way up to your door
Oh baby, c'mon now and

Hit me
Hit me
Hit me with your light and love

Ill be right beside you forever
I wont never ever leave you behind

C'mon honey
I wanna ask you a favour

Hit me
Hit me
Hit me with your light and love
