Anything I ever did for you
I pick you up a night trying to make it right trying to
stop a fight
It was all in vain and it's such a pain
'Cause you don't change you don't change at all

The time has come
I'm moving on no matter what I say no matter what I
do
Your leaving anyway and though I care though you're
everywhere
You don't change you don't change at all

Need another lovesong I need another song
To get by you know why
I need another lovesong
A song 'bout good a song 'bout bad
A song about the love we had
I need another song I my heart

I know by now it was a waste of time
I should have seen it all written on the wall
Why did I ever stay but you were here yeah you're
everywhere

And you don't change you don't change at all

Need another lovesong I need another song
To get by
I need another lovesong
A song 'bout good a song 'bout bad
A song about the love we had
I need another song I my heart

No matter what I do
I can't find it in my heart to say we're through
And though I try to clear the air I didn't find no love
anywhere

Need another lovesong I need another song
To get by

Need another lovesong I need another song...

Another song in my heart
That's what I need
A song about good and bad
I need a song the song in my heart
