The wheels are rolling beneath my feet
Stereo's craning a viscous beat
59 more miles to go till we reach this town
Half a tank of gas is left
Skies dark and we've had no rest
35 more miles to go till we reach this town
The boys are hungry tired and bored
We're at the club it's time to unload
Those beers are buzzing in our brains
We're going to take this town

It's a road life, and there's nothing better...oi!oi!oi!
Playing for the kids and were drinking together
It's a road life, and there's nothing better...oi!oi!oi!
Playing for the kids and were drinking together
