As I close my eyes I just don't feel myself
I speak in foreign tongue in the voice of someone else
And I've been a sinner baby, with no soul left to soul
I've got a love for lust and a lusty thirst to kill

Look at the blood on my hands now
There's not a breath left to breathe
This is the road to destruction
That I never can leave

It's passion that I crave
And this time he's taking over and everyone gets slain
And I am a killer baby, a sinner and a saint
I've got a thirst for war and a will to dominate

And now the war is upon us
Are you ready to bleed
This is the road to destruction
And no one gets to leave

Oh this will only lead to whatever ability
And you'll practice your demise
As hard as the air you breathe
Something about the way I do when I hear you scream
Is it wrong, it turns me on and haunts me in my dreams

Aren't we having fun
On the road to destruction
Aren't we having fun
On the road to destruction
Baby here we come

I just can't seem to shake all this hate inside of me
And it burns, it twists and turns, in the face of my
enemies
Now is the bloodstain play of a ruthless liberty
So before your one last breath, oh baby
Let me hear you scream

Aren't we having fun
On the road to destruction
Nowhere you can run

On the road to destruction
Baby here we come

Road to destruction
Aren't we having fun
On the road to destruction
Nowhere you can run
On the road to destruction
Turn it deep in time
