Time passes by
With pictures of you stuck in my mind
Over and over again
It's how the story ends
All I want to do is talk to you
Try solve the shit were goin through
But when I try I can find it in me
To say the words running so freely

I need to get away
Leave all your lies
I need to runaway
Without you by my side
I need to leave today
And follow my own life

As the days grow longer
My hatred builds stronger
This isn't what I wanted
Now that my dreams are haunted
I'm becoming weak as I begin to sink
Drowning in this river of feelings
It's fucked my life up no more chances
There's no escape I want answers

I need to get away
Leave all your lies
I need to runaway
Without you by my side
I need to leave today
And follow my own life

My final breath, is telling me
This is almost the end, of you and me
As my regrets, they say goodbye
To our hope and to your lies
My final breath, is telling me
This is almost the end, of you and me
As my regrets, they say goodbye
To our hope and to your lies

Fuck you bitch

I put my trust on the line
I layed my heart out in the open
I gave it all for you and I wound up broken
Now your lies acts self abuse
Mistakes regrets and empty promises are alone
Your alone

My final breath, is telling me
This is almost the end, of you and me
As my regrets, they say goodbye
To our hope and to your lies
My final breath, is telling me
This is almost the end, of you and me
As my regrets, they say goodbye
To our hope and to your lies

Leave your lies
Leave, lies
Final breath
Lies
Lies
Leave all your lies
