

Endless "Cell"

Visit "[Cell](#)" on MotoLyrics.com

Now anytime that we meet
You will feel the space I left when the hammer came
down on me
And you were right, I make believe
I'm in the perfect situation to get off with what I need

I gotta go
I got my hand in the air and I'm motioning

I'm the machine, part for part an investment
(Should something happen to you, I disappear)
I'm the machine, call me out, I'm a traitor, I'm an inside
man

So here we go, my machinery
There is a never ending world that hasn't seen what I
could be
So resistant to history
I'm in the perfect situation to get off with what I need

I gotta go
I got my hand in the air and I'm motioning

Drown the sources!
