Sept 11th we will not forget  
Senseless acts by some terrorists  
Murder and hatred for all human kind  
Sorrow and suffering never left behind

[chorus:]

Damage has been done, but will will still strive  
Can't take away our freedom can't take away our pride

United we stand, divided you will fall

So go ahead to try to hide in your cave  
We'll blow your ass up and make it to your grave  
All of your sick followers dance on the street  
Laugh it up you will feel defeat  
Payback  
We will strive
