What's that you tried to pull over me?
You want a hook at the pit of me!
Want me to feel that I've done you wrong
You want a hook at the pit of me

I really wanted to love this world
I really wanted to love this world but I can't
See romance in a maze of debasement, now can I?
I really wanted to love this world
I really wanted to love this world but I can't
See romance in the open mouth on the face of a
cannibal

Well something should have happened, I went through
the motions
I made all the switches and bogus accounts

Solvency, ate all the words, have you got anymore?
Solvency, let's open up, share all our big ideas
