### [Verse 1]

I know the color of your eyes  
I know you stare when I pass by  
I know you'll be here when I cry  
And I know you love me

When I look up into the sky  
I find all the reasons why  
To know you care about my life  
And you'll never judge me

### [Bridge]

It takes two, to be in love  
I know that without you life would suck

### [Chours]

So tell me, tell me something I don't know  
I want you to tell me, tell me something I don't know  
I know we can't go to the Sun  
You have to walk before you run  
True love only happens once  
So go on and try to tell me, tell me something I don't know

### [Verse 2]

I know I can wish on a star  
To be with you it's not that far  
And in the morning it'll come true  
Cause I need to be there next to you  
Now I know life isn't always fun.  
But somethings just have to be done  
And don't you know your my only one

### [Bridge]

It takes two, to be in love  
I know that without you life would suck

### [Chours]

So tell me, tell me something I don't know  
I want you to tell me, tell me something I don't know  
I know you pick me up when I'm down  
When I'm upset you give me a smile

Your touch always turns my feelings around  
So go on and try to tell me, tell me something I don't  
know

[Verse 3]

You know that I understand  
Your always here to hold hand  
I need you here by my side  
For now until the end of time  
I know that your my true man  
So hold me close and kiss me again

[Chours]

So tell me, tell me something I don't know.  
I want you to try to tell me something I don't know  
Go on and tell me

[Verse 4]

I want you to tell me and drop that little note  
You've got to tell me. Tell me that something I don't  
know

Yeah something I don't know
