Vision straight from hell
As it spread it's wings before you
Malice shadows
Your infected soul
Assiduous formula of sadistic blackness

Putrefaction from within
A fusion of black flesh and monstrosity

Putrefaction to come
As the pillar of life collapse
Extreme shockpulse of anguish
Rage the face of the earth
Distinct peril
Extermination of divine abomination

Severe seysures of blood craze
Until you havent humanity

Severe seysures of blood craze
Until you havent humanity

Black flesh, malediction
