Don't beat around the bush

Bringin' me closer to here
Takin' me farther than near
Insecure love fit commands
Shovin' my face in the sand, go

Stick it in 'em, I'll stick it in 'em, I'll make 'em feel
Lettin' 'em know that this life is for real
Stick it in 'em, I'll stick it in 'em, I'll make 'em see
The choices that drive our disease, yeah

Don't beat around the bush

Bringin' me closer to here
Takin' me farther than near
Insecure love fit commands
Shovin' my face in the sand, go

Can't you see that you're fuckin' up the program?
You've got the score, maybe you've got the hand
Lost your breath, now you're lying on your back
Lost your head, caught smokin' crack

It's all you wanted, it's all you needed
Don't, don't, don't beat, don't beat, don't beat
Don't beat around the bush

Don't beat around the bush

Don't beat around the bush, beat around it
Don't beat around the bush, beat around it
Don't beat around the bush, beat around it
Don't beat around the bush, beat around it
Don't beat around the bush

Say it, motherfucker
