These uncontrollable thoughts

They stem from you

These undeniable shocks

They stem from you

This undeniable sleeplessness

It stems from you

This undeniable weakness

It stems from you

We're just falling off the deep end

Dying

Screaming

In this hole that you fill

Die, die, die, I won't die for

Screaming

Slowly

Die, die, die, I won't die for you

These wandering eyes

Watch after you

These paranoid lies

Run after you

This undeniable sleeplessness

It stems from you

This undeniable weakness
It stems from you
We're just falling off the deep end
Dying
Screaming
In this hole that you fill
Die, die, die, I won't die for
Screaming
Slowly
Die, die, die, I won't die for you
Every day
Every ##### minute
I've lost my self in you
I think
Betrayed myself for you
You mark me the deepest
You scar me the deepest
You hurt me the deepest
You mark me the deepest
We're just falling off the deep end
Dying
Screaming
In this hole that you fill
Die, die, die, I won't die for
Screaming
Slowly
Die, die, die, I won't die for you
