MADNESS

Madness

Madness

What if it's genius

Genius

Meaning humans

Humans

But the people that are mad aren't structured to know

Show me a place to another world

Show me a soul I could never know

Show me a place to another world

Circling inside my head

Taking everything from me

Wishing everyday I'm dead

Making out I could not see

Take my soul you're in control

Seduce me

Reduce me

Take my soul you're in control

Show me a soul I could never know

Show me a place to another world

Show me a place to another world

Madness

What if it's genius

Madness

Genius

Meaning humans

But the people that are mad aren't structured to know

Humans

Show me a soul I could never know

Show me a place to another world  
Show me a place to  
another world
