Alone with my thoughts  
Memories I'm with you  
Are moments with God  
Days that were so true  
Now fall into pain  
Reason escapes me  
I'm only to blame  
I can't see without you  
Without you  
Remember us  
Remember us  
Always forever us  
Forever us  
Do you remember us  
Remember us  
Seeing you now  
Alone and without me  
I've suffered somehow  
I can't see through me  
I'm only in pain  
So lost without you  
Alone and in shame  
I can't see through you  
Without you  
Remember us  
Remember us  
Always forever us  
Forever us  
Do you remember us  
Remember us  
A mirror in your eyes  
Remembering our lives  
A mirror in your eyes  
I remember  
Remember us  
Remember us  
Always forever us  
Forever us  
Do you remember us  
Remember us
