"No Heaven Over Germany"

Visit "[No Heaven Over Germany](#)" on MotoLyrics.com

Did we persist in grief
Traces given for sinisters
Once delivered for their moods
No heaven over Germany
The afterthought was formed
And right below us
Outside of their fear
A perished generation
Among false idols
Only darkness in sight
Sins are remaining
I was not born...
Gone is the fog of war
Which invoke the final chaos
There was no light
Deadly final silence
For what is peace
No heaven over Germany
