Slowly Feel Time Tick Away
As We Near The Fateful Day
Don't You Hear What They Won't Say
Visions Clear, Read What They Say
In A World Free Of Pain, Free Of Fear, I Long To Live
In A World Without End, But Were Failing Again
My World Without End Is Crumbling
He Showed Us Terror
And Showed Us Fear
The Human Error
Did Not Believe
Could Not Reach You, Could Not Teach You
Who Is Gonna Save Us From Ourselves
So We Stand On Razors Edge
Hang Our Heads Over The Ledge
Close Our Eyes To Our Own Sin
Those Who Fail Could Never Win
In A World Free Of Pain, Free Of Fear, I Long To Live
In A World Without End, But Were Failing Again
My World Without End Is Crumbling
I'm The One, The Terror

Deepest Living Fear

I'm The Burning Question, The One That Draws You
Near

Could Not Reach You, Could Not Teach You

Who Is Gonna Save You From Yourselves

Greatest Fear, One Step Away

Always Hear, What They Won't Say

In A World Free Of Pain, Free Of Fear, I Long To Live

In A World Without End, But Were Failing Again

My World Without End Is Crumbling

My World

My World

My World Is Crumbling
