Cleansed of flesh and absolved of all deeds  
Now our peace will settle all  
A myth so dreadful your soul will sag  
From the weight it carries  
I can hear their dreadful song  
Unaware of death as they seek to face  
The embrace that once was and all they needed  
All will share a carrion fate

Be prepared for multiple deaths  
Of all souls as hells rolls on  
As hells rolls on the path of light we crumble  
Every lamb in all worlds will be slaughtered  
Remember back to the earliest curse  
The point from which all men did turn  
Even man in his infancy stage  
He did everything he could to dig his own grave  
As he said, "Suffer through the Myst to forge your will  
And the world will surely come"

Deception our hallmark, our patient, our word  
"Sapient" their word to describe themselves as wise  
man  
Blanket lies to conceal the truth that  
They we're but only blind men  
Lucifer - the bringer of all light bears  
Solemn truth for all  
Take - come forth - these sacraments of  
Braktal O'Minn and all  
That the angels came from bastion's gaze  
Of the hot lukewarm calls

Lick the blade but once again  
She'd no tears for your fallen kin  
And make haste to make proper and join within  
The Fold - the legions of the damned (at best)  
As we invade the duress of all heaven and  
The Seraphim's halls  
The day as come  
The final reckoning of the will of the black  
And his fallen minions

And with the heavens now altered and subdued  
To the powers of us  
Well put to use necrologies to conquer earth  
Keeping in mind our advantage  
We'll toy with them thousands of years
