Helios - Guide me by the sun  
And with east and west geometrices  
A trance will now be spun  
Devils from past hells perceived to be one  
But not by man; Aman, his clan  
Now our fates will slice their tongues

From the East past the Herald Gates  
For months and months their heels would batter and  
break  
As they passed over great lengths to seize my spell  
In the Galleries of the Utmost Evil  
And then at last it's talons grew  
Straight out from the Earth itself  
The truth of all forgotten things  
Too horrible for thought or mention

And the churning death from depths abhorred is found  
His fervent duty unleashed with hate forever will  
resound  
In the mind's eye until the end of days  
- concurrent with what they've found  
The spires of power and citadels of wrath  
- of hidden poison wrapped in mounds

Like Apollyon's dark path - these harlots of lost  
dominion

Apart from his kind  
- now in and amidst the sights of wonder, the bowels  
within  
Of a prison long forgotten that scoured the Earth  
- in the hearts and minds of men  
As Moses received our will from the tree  
This ignorant disciple will too scour the Earth  
For a time and time again

Now go forth - bring Hell to all lost souls like Thebes  
Decimate and raze the land as you choke off life  
- Foul leech

The human race will do anything to murder itself

And to poison life for me  
At the cost of my cult
