Wings of the harlot burning the night sky  
Sirens screaming through the valley  
The dawn of chaos  
Spilling the blood of the heathens in the streets tonight  
The angel of mercy is laughing  
Still holding on to the scythe  
Wings of scarlet  
Burning harlot  
Right through your poison hearts  
Into infernal desire  
The enemy angel arrives (burning brighter)  
Now she's coming to take you away  
Into the darkness divine  
This enemy angel of mine  
The ending was written right from the start  
We are tearing down the sacred heart  
Scenes from a generation  
Waiting for something  
Now holding nothing  
Right from the start  
Tearing the sacred heart  
Plague raging  
Wrath of the gods  
Death - Destruction  
The devil's way  
Nowhere to run  
Nowhere to hide  
Armageddon holiday  
Blood of the heathens  
Now begging for mercy
