27 years I have wasted  
Razor to wrist will erase it  
Fix me a drink and some pills for relief  
As I wait here to die  
She'll be by my side  
The suicide bride  
Death is the new life  
Can I get a witness to the fall?  
Slitting my past for a better (quicker) tomorrow  
'Cause there is nothing in this world that can keep me  
alive  
Thanks for nothing  
Into the looking glass a dreamland if you dare  
You are going nowhere fast in this shape of despair  
Welcome to the fall  
We're so glad that we could see you end it all.
