Happy as a big and shit
Gonna build a fortress from this wasted hatred
Under your skin.
Why I do I do the things I do.
Wouldn't you like to know?
Wouldn't we all?

What you want is something I might just want myself.
What I have is gonna piss you off.
What you need, I'm happy as the biggest shit to give,
But I'm pretty sure it's gonna piss you off.

Your teeth, are red and my hands are sore.
I, suggest that you lay on the floor,
I, sugesst that you stay on the floor.
Why do I do the things that I do?
Wouldn't you like to know?
Wouldn't we all?

What you want is something I might just want myself.
What I have is gonna piss you off.
What you need, I'm happy as the biggest shit to give,
But I'm pretty sure it's gonna piss you off.

Happy as a big and shit
Gonna build a fortress from this wasted hatred
Under your skin.
Under your skin.

What you want is something I might just want myself.
What I have is gonna piss you off.
What you need, I'm happy as the biggest shit to give,
But I'm pretty sure it's gonna piss you off.
