You're on the tip of my Tongue I'm on the edge of my
Seat
Feel like I've come undone swept right off my feet
And I don't know if you sympathise
There's something there that we can't deny
If you got some sort of surprise

Well keep talking, I'm listening
You can tell me everthing
Oh tell me what you're missing
Tell me what you feel inside
Keep talking, I'm listening
Don't whisper let it out somehow
Even if the words are missing
I wanna know what you're all about

I'm at the end of my rope the point of no return
Just like a downhill slope I could crash and burn
And I don't know much but I know for sure
You're the one I been looking for
So c'mon let me here some more

Keep Talking, I'm listening
You can tell me evrything
Oh tell me what you're missing
Tell me what you feel inside
Keep talking, I'm listening
Don't whisper let it out somehow
Even if the words are missing
I wanna know what you're all about

And I don't know much but I know for sure
You're the one I been looking for
So c'mon let me here some more

Keep Talking, I'm listening
You can tell me evrything
Oh tell me what you're missing
Tell me what you feel inside
Keep talking, I'm listening
Don't whisper let it out somehow

Even if the words are missing
I wanna know what you're all about
