Bella Italia

It seems like only yesterday that you and I were there
Walking through the market place with music in the air
You were like an angel that have fallen from the sky
I never knew how far I've fallen in love

I still can hear the laughter and I still can taste the wine
We did everything together, pasta all the time
Spaghetti, macaroni, tortellini, cannelloni
And every day the sun will shine

Signorina here's to you and I and all the times we
shared
Bella Italia
Signorina here's to you and I and I'm wishing we were
there
Bella Italia
Signorina here's to you and I 'cause I will always be
So in love with you
Mama mia, signorina you are so bellissima
Bella Italia
Mama mia, signorina you are so bellissima
Bella Italia

Though now you're just a memory that wanders
through my mind
A long ago, a fairy tale, a once upon a time
When I remember you and me I know that I will always
be
The man still in love with you

I never will forget the times we drove along the coast
Whenever I was with you that's the place I love the most
Milano, Remeni, Bologna, Roma, Napoli
Till yesterday I drink this toast

Signorina here's to you and I and all the times we
shared
Bella Italia
Signorina here's to you and I and I'm wishing we were

there
Bella Italia
Signorina here's to you and I 'cause I will always be
So in love with you
Mama mia, signorina you are so bellissima
Bella Italia
Mama mia, signorina you are so bellissima
Bella Italia

Bella Italia

Bella Italia

Signorina here's to you and I 'cause I will always be
So in love with you
Mama mia, signorina you are so bellissima
Bella Italia
Mama mia, signorina you are so bellissima
Bella Italia

Bella, bella, bella Italia
