it's been forever since she walked out of my
door
she left a heartache and some stockings on the
floor
I guess the crazy types are really not my kind
I never know who my heart will find

another Saturday I wind up all alone
I've eaten breakfast, lunch and dinner on my
own
I need a little conversation and some wine
I never know who my heart will find

here comes a girl heading my way
dancing alone to some reggae
I've got to find out who she is
woawoawoawo

Chorus:
I got a faithful heart
a faithful heart inside of me
and I could love you
from this moment till eternity
take me for who I am
and what I'll do - is promise you
a faithful heart - your whole life through
woawo faithful heart
woawo faithful heart

if you're living with a lover's memory
or the one you've got is lying constantly
let me show you how a love can really shine
you never know who your heart will find

I fell for your heart right away
watching you dance to some reggae
give me a chance and you will see
woawoawoawo

Chorus.

I got a faithful heart
a faithful heart inside of me

and I could love you
from this moment till eternity
take me for who I am
and what I'll do - is promise you
a faithful heart - your whole life through
woawo faithful heart
woawo faithful heart

take me for who I am
and what I'll do - is promise you
a faithful heart - your whole life through
a faithful heart - your whole life through

the music's starting to slow down
if you still want to hang around
these arms of mine are open wide
and I would love to hold you
love to hold you
tight

Chorus:

I got a faithful heart
a faithful heart inside of me
and I could love you
from this moment till eternity
take me for who I am
and what I'll do - is promise you
a faithful heart - your whole life through

I got a faithful heart
a faithful heart inside of me
and I could love you
from this moment till eternity
take me for who I am
and what I'll do - is promise you
a faithful heart - your whole life through
a faithful heart - your whole life through
a faithful heart!
