I would cry - I would die if you leave girl

I've been losing the best part of me

Yes, I know we can make it together

There's some things that just have to be

Let me take you take the moon

We can capture a star

I you need love like I do

Heaven is not too far

I wanna rock you in my wildest dreams

I wanna kiss you baby endlessly

I wanna love you with all my heart and all my soul

Until I lose control

I wanna rock you in my wildest dreams

Come on and show me what I mean

I tell you something if you give in without a fight

We can make a start tonight

There's an ache in my heart when I see you

The power you own over me

And I know it will never stop flowing

Now, we're locked in our own fantasy

You're like an endless flame

And I'm burning with desire

I can feel the magic of your kiss

Setting me on fire
