Found an answer in my heart that I will follow  
It might keep sanity at bay  
But I'll be hollow not to give a part of me  
I get so much from you  
Could this really be a wrong when it feels right to do

Uuh..  
Feels like my past  
Is a page I turn  
In a book of fate  
I lived and I learned  
I'm playing my own game now  
I'm making rules I won't pretend  
When intuition conquers you  
You will win in the end

Found an answer in my heart that I will follow  
It might keep sanity at bay  
But I'll be hollow not to give a part of me  
I get so much from you  
Could this really be a wrong when it feels right to do

Easy drifting away on believing  
Never give up on a feeling

Found an answer in my heart  
Found an answer in my heart

Found an answer in my heart that I will follow  
It might keep sanity at bay  
But I'll be hollow not to give a part of me  
I get so much from you  
Could this really be a wrong when it feels right to do
