"When I Say Goodnight"

When I say goodnight in your little room
Ah, that's the time I love you best of all
When I say goodnight in your little room
The shadow of your smile is on the wall

But I can see the reason, it's just your way of teasin'
But my, oh, my, my, my, I'll take it all

When I say goodnight in your little room
The only place where we can be alone
When I say goodnight in your little room
To hold you close this way, you say is wrong

But I can see no reason, why you should keep on
teasin'
If you don't stop, our love just can't go on
But I can see no reason, why you should keep on
teasin'
Why can't we let the night just linger on
