You've got a way of making sunshine of the rain  
You've got a way of turning ashes into flames  
I can't believe you're making darkness into light  
You're making all my contradictions turn out right

You're in my horizon everywhere I see  
And when I try to reach you you're right next to me  
Every time I think I'm close you take me closer  
Even now when you're away I feel you're near

You've got a way of making sunshine of the rain  
You've got away of turning ashes into flames  
I can't believe you're making darkness into light  
Like you make all the famous clichés sound so right

Every time I think I'm close you take me closer  
Even now when you're away I feel you near

You've got a way of making sunshine of the rain  
You've got away of turning ashes into flames  
I can't believe you're making darkness into light  
You're making all my contradictions turn out right

You've got a way of making sunshine of the rain  
You've got away of turning ashes into flames  
I can't believe you're making darkness into light  
Like you make all the famous clichés sound so right
