Stay tonight
Let the moment be forever
I don't want to force your heart to
Stay tonight
If we make it last together
Everything is gonna be alright

I know the table's turned
I felt my fingers burn
And if you let me go
I'm just a fragile soul
Do you believe in destiny
And second chances

Stay tonight
Let the moment be forever
I don't want to force your heart to

Stay tonight
If we make it last together
Everything is gonna be alright

Stay tonight
Let the moment be forever
I don't want to force your heart to
Stay tonight
If we make it last together
Everything is gonna be alright

Stay tonight
Stay
Forever
