Standing still
But you've had your day
Had the face
But you won't stay

Slowed down, weighed down
Right into me, it's not right
Waved on, helped on
Right into you, goodbye

Read your mind
But you have your needs
Hopeless times
But you are so pleased

Slowed down, weighed down
Right into me, it's not right
Waved on, helped on
Right into you, goodbye

Slowed down, weighed down
Right into me, it's not right
Waved on, helped on
Right into you, goodbye

[Incomprehensible]
