"What Pushed Us Together"

I'm torn by this feeling I've been left alone, even
though,
It's love that starts healing, I can't let you go. Does it
show?

What pushed us together,
We swallowed completely.
I've realised what you bring.

It could work out fine for someone like me now,
Which one will you seek?
So don't you close your eyes, follow what i'm saying
Which part will it be?

What pushed us together,
We swallowed completely.
I've realised what you bring.

I'm torn by this feeling I've been left alone, even
though,
It's love that starts healing, I can't let you go. Does it
show?

What pushed us together,
We swallowed completely.
I've realised what you bring.

What pushed us together,
We swallowed completely.
I've realised what you bring.
