One of a group standing firm and proud
Preaching catalytic words aloud
Others stand behind and repeat his actions
Trusting, and joining in his direction

Criminal juvenile-look over your shoulder
Can't put your trust in you next door neighbour
Criminal juvenile-never say no
Die like a champion child of tomorrow
Criminal juvenile-society bolted, Locked, thrown the
only key
Criminal juvenile-child of tomorrow

Sadistic commander, rigid as a corpse
Distorted vision from a brain that's warped
Without any questions they copy what he does
Fearing any violence he can use

Threw the only key

Front page of the news
Propaganda looking for new recruits
Exciting you with power, respect, and pride
But behind closed doors he takes you for a ride

Criminal criminal juvenile
