When it all goes crazy and the trill is gone
Day gets rainy and the night gets long
When you get that feeling you are born to lose
Starring at your ceiling thinking of your blues

When there so much trouble that you want to cry
The worlds have crumble and you don't know why
When your hopes are fading and they can't be found
Things aren't look too great and Friends will let you
down

Just remember I love you and it'll be all right
Just remember I love you more than I can say
Maybe then your blues will fade away

When you need a lover and you're down so low
You start to wonder but you'll never know
When it feels like Sorrow is your only friend
Come again tomorrow you'll feel this way again

When the blue comes calling at the break of dawn
The rain keeps falling but the wrings goes on
When you feel like crying but the tears won't come
Think your dream are dying when you are on the run

Just remember I love you and it'll be all right
Just remember I love you more than I can say
Just remember I love you and it'll be all right
It'll be all right
It'll be all right
It'll be all right
