Oh yeah

If you wanna put a message to my heart, should be
early in the morning

I'm gonna rise and shine or wake you up, and move
you without warning

Call my name, I understand the reason for desire

The pen of gold I give to you, could be the ring of fire

Something in your kiss that lasts forever

Burning in the heat for you, I love you 'round the clock

You get the best of what I got, oh yeah

Gonna work all day to buy you pretty things, 'cos you're
such a pretty girl

You can work me overtime, knock me out, got my
senses in a whirl

Like a locomotive burning down the track, you're my
destination

One on one, a kiss for a kiss, you're my fascination

Something in your touch that holds the promise

You got me feeling all shook up, I love you 'round the
clock

You get the best of what I got, oh yeah

I put my key inside your door and it feels so good

When I come home at night, we're rockin' the
neighborhood

Rockin' the neighborhood

(Instrumental break)

Something that you read about in heavens

I feel the heat for you, I wanna rock you 'round the clock

You get the best, you get the best of what I got, oh yeah

You get the best of what I got, aw

I wanna love you 'round the clock (best of what I got) oh

You get the best of what I got (best of what I got) aw, that's right

I wanna love you 'round the clock (best of what I got) aw, ooh, yeah

(Best of what I got) that's right

You get the best of what I got (best of what I got)... (to fade)
