Ow

Oh yeah

If you wanna put a message  
through my heart  
Shoot the arrow in the morning hey  
I'm gonna rise and shine  
and wake you up  
And move you without warning  
Call my name  
I understand the reason for desire  
The band I give to you will be the ring of fire

Something in your kiss that lasts forever  
Burning in the heat for you  
Love you 'round the clock  
You get the best of what I got  
Oh yeah

Gonna work all day to buy you pretty things  
Cause you're such a pretty girl  
You can work me overtime knock me out  
Got my senses in a whirl  
Like a locomotive burning down the track  
You're my destination  
One on one and kiss for kiss  
You're my fascination

Something in your touch that holds the promise hey  
You've got me feeling all shook up  
Love you 'round the clock  
You get the best of what I got  
Oh yeah

I put my key inside your door  
And it feels so good  
When I come home at night  
We're rocking the neighborhood  
Rocking the neighborhood

Something that you read about in headlines  
I feel the heat for you

I wann rock you 'round the clock  
You get the best  
You get the best of what I got

Oh yeah  
You get the best of what I got  
Ow  
I wanna love you 'round the clock  
(Best of what I got)  
Oh  
You get the best of what I got  
(Best of what I got)  
Ow  
That's right  
I wanna love you 'round the clock  
(Best of what I got)  
Ow  
Ooh yeah  
(Best of what I got)  
That's right  
You get the best of what I got  
(Best of what I got)  
Oh yeah  
Oh yeah  
(Best of what I got)
