Had a dream you were with me last night

I was your prisoner in a castle, hands tied

Was it pain, was it pleasure, you couldn't decide, no

A mistress that can call my name, I wanna know, yeah

'Cos baby I'm ready, ready when you are

Ready in a heartbeat, a slave for love tonight (ready when you are)

I'm ready when you are, that's right

Did you dream you were with me last night

Was it Paris, in a hotel, a red light, ooh la la

Hear me knockin' at your door, I've come back for more, need some more

'Cos baby I'm ready, ready when you are

Ready in a heartbeat, a slave for love tonight (ready when you are)

I'm ready, baby, that's right

I'm ready for you, you're ready for me

I'm ready girl, ready as anybody can be

(Instrumental break)

Try another fantasy, you know you're mine, anytime, yeah, 'cos

'Cos I'm ready, ready when you are

Ready in a heartbeat, a slave for love

Ready when you are, ready in a heartbeat

A slave for love tonight (ready when you are), I'm ready  
when you are, oh yeah

Make a wish, close your eyes, wear another cheap  
disguise (ready when you are)

Dream baby, just dream (ready when you are)

Sweat baby, you never know what you're gonna get  
(ready when you are)

You never know what you're gonna get, so dream baby  
(ready when you are)

Sweat, sweat baby, dream babe, you never know what  
you're gonna get

Dream baby
