I said I see no joy, I see only sorrow  
I see no chance of your bright new tomorrow

So stand down Margaret, stand down please, stand  
down  
I say stand down Margaret, stand down please, stand  
down

Stand down Margaret, stand down please, stand down  
Margaret  
I say stand down Margaret, stand down please, stand  
down

I sometimes wonder if I'll ever get the chance  
Just to sing to my children in a holiday jam  
Our lives seem petty in your cold gray hands  
Would you give a second thought, would you ever give  
a damn?

I doubt it  
Stand down Margaret  
Everybody shout it  
Stand down Margaret

Work, white law  
Shell shock, world war

Stand down please  
Stand down Margaret, stand down please, stand down  
Margaret  
I say stand down Margaret, stand down please, stand  
down Margaret  
Stand down Margaret, stand down please, stand down  
Margaret  
I say stand down Margaret, stand down please, stand  
down Margaret
