Goodbye Milky Way)

Shall I go?

Shall I stay?

107 light years away, many times, so many doubts...

But no reason to talk about...

"mission is over, mission is done,

I'll miss you children of the sun

But it's time to go away, Goodbye, Goodbye Milky way!"

For a better world without hate, from your heart believe in fate

Only visions and the mind will guide you to the light.

"mission is over, mission is done,

I'll miss you children of the sun

Now it's time to go and say, Goodbye, Goodbye Milky way!"

Mission is over, mission is done,

I'll miss you children of the sun

I'll get born this one day,

I say Goodbye, Goodbye Milky way!"

In 5 billion years

Andromeda galaxy will collide with our Milky way,

A new gigantic cosmic world will be born...
