

Enigma "Sitting On The Moon"

Visit "[Sitting On The Moon](#)" on MotoLyrics.com

I'm sitting on the moon
Watching planet Blue, hello
Looking all around
Rotating without sound
Where are you?

Where are you?
I'm sitting on the moon
Where are you?
I am missing you
I am missing you

I came from very far
A little unknown star, hello
I don't know what to do
It is so cold and blue without you
Where are you?

Where, where are you?
I'm sitting on the moon
Where are you?
I am missing you
I am missing you

Where are you?
I'm sitting on the moon
Where, where are you?
I am missing
I am missing you

Where are you?
I'm sitting on the moon
Where are you?
I am missing
I am missing you
