Come bringers of sickness and death
Ogiodi, Iopgna, Atoglo and Rmlaon
I invoke thee evil angels
Come forth to vomit thy grief

Gah iad oi as momar
Spread thy (leathery) wings over the stars
For I summon thee with blood
And by the power of the black Craa

Gah de teloch od qting
Evil angels weltering in sin
Come and spread thy vile semen
From thy loins to mortal wombs

Butmoni parm zumvi cnila
Vohim ol gizyax

...De siatris od teloch
...Of venomous evil beings
...Of bitches' labor screams
...De siatris od teloch
From the unclean mortal wombs
Rise the cities of tombs
...De siatris od teloch
...Of venomous evil beings
