In the flesh
You got me high
You got me high
I feel your heartbeat still all night
Boy

You want the one thing
You're a beautiful panther
Inside your bedroom
Outside we can't

I feel excited when you cursed me

How are you?
I'm feeling fine
Except you got me high that I can't sleep at night

You want the one thing
You're a beautiful slider
you pitch your fastball straight from your shoulder

You want the one thing
You're a beautiful panther

No one can strike me like you do
