We left our homes behind, now we're following the  
wolves' trail  
Through the deepest forests, beneath the stars we ride  
I can see the moon glowing red like the blood of  
warriors  
There's a prophecy that tonight many men will die

The fire will burn forever in our passionate hearts  
Our destinies are calling us now, oh, oh  
We are ready to take their lives

Into battle we ride with Gods by our side  
We are strong and not afraid to die  
We have an urge to kill and our lust for blood has to be  
fulfilled  
We'll fight 'til the end and send our enemies straight to  
hell  
Straight to hell

Prominent leaders  
Cast your swords in the wind as a sign of war  
Men, prepare for death  
'Cause we might never return, never return

Blood will spill and heads will fall  
As the swords sparkle, lights the night  
The ground rumbles as we attack  
In the throes of rage, we'll fight

The lightning's flash, the thunder's roar  
Will petrify the weak  
We'll show no mercy, we'll kill them all  
We are sworn in the name of steel

Into battle we ride with Gods by our side  
We are strong and not afraid to die  
We have an urge to kill and our lust for blood has to be  
fulfilled  
We'll fight 'til the end and send our enemies straight to  
hell

Into battle we ride with Gods by our side

We are strong and not afraid to die  
We have an urge to kill and our lust for blood has to be  
fulfilled  
We'll fight 'til the end and send our enemies straight to  
hell
