I would always learn, I was never taught  
Fucked it up again, that's just my luck  
Always try to do, by myself  
Cause in the end, there's no one else  
Always try to do what I think is right  
Try to grab tomorrow  
Make it to the light  
In my heart I know, what I have to do  
Try and grab tomorrow  
Just try and make it through  
I would always learn, I was never taught  
Fucked it up again, that's just my luck  
Don't let the wrong choice, get in the way  
Always try to see  
Another day  
Stand, stand on my own  
You won't help mt, so I'll go it alone  
Day after day, as I find out the truth  
More and more just what I have to do  
Stand, stand on my own  
You won't help me, so I'll go it alone  
Day after day, as I find out the truth  
More and more I know what I have to do
