A million miles from nowhere
My faith shattered, ego bruised
I shut my eyes and hope it all goes away
But I return again I come back
To the ones who care enough
Put faith in us
And help us struggle on
Through these days
We've had so many questions
Learned so many
Learned so many lessons
Come full circle and never reached an end
The days we felt like giving up
Like no one cared except for us
Thanks to those who helped us see it through
Knocked down and shut out once again
Push past the hard times, walk that fine line
Until we see you at the end
Taken in and given hope
You let us know we're not alone
You helped us see we're doing something right
Through these days
We've had so many questions
Learned so many
Learned so many lessons
Come full circle and never reached an end
The days we felt like giving up
Like no one cared except for us
Thanks to those who helped us see it through
Thanks to those who helped us see it through
Through the days uncertainties
You were always there for me
I'll never forget what you have done
Through the days uncertainties
Thanks to those who stood by me
I'll never forget what you have done
