"The May Conspiracy"

Industrialize and water down
Invade divide and conquer
Modernize westernize
Assimilate the landscape

Strip the land of it's history
Rip the heart from the people

Capitol gain lay corporate waste
Rebuild and serve it's interests
Extend our helping had where it was never asked for

Exploitation slash and burn
Americanize the culture
Filthy secret wars force them into submission

Our intervention where it is not wanted
and our denial of involvement through hundreds of
years
of extending the interests of an empire
that poisons itself with it's own lies
will only lead to it's own demise

Whether from within or at the hands of that is
oppresses
