Have you ever seen beyond the reach?  
Have you ever felt the change?  
Visions from an altered state  
They conceal and relevelate

Communing once again with Gods  
Thread unto the impossible path  
Talking with a different tongue  
Heralding the unsung

Reach for them, see them turn away

Have you ever seen beyond the reach?  
Have you ever felt the change?  
Visions from an altered state  
They conceal and relevelate  
Fly away, chains undone

Reach for them, see them turn away

Doors open wide  
Step into the light  
No turning back  
Embrace the night  
Breathe eternities  
We are not alone  
Never to return  
Merge with the unknown
