Remodel substitutes, the dream starts here

If time is stolen one crucial moment disappears  
And selections are re-scheduled by odd incidents  
Under these timid hopes it doesn't count as we are  
waiting  
Something to fill our minds and heal our hearts...

Light my way deeper where the heart remains  
unexposed  
And like this... not a story with a happy ending  
Can ever take over in real life

Highly strung-out but why to entwine?  
To unite our thoughts in one massive dream?  
Or just face the certain fracture?  
Yet, all quaint suggestions are kindly sympathized  
Light my way deeper where the heart remains  
unexposed  
And like this... not a story with a happy ending  
Can ever take over in real life

Remodel substitutes, the dream ends here

Total awakening beyond remotest obscurity  
In the aftermath of deepest revealings  
Hands tied together in the darkest corner  
Where security seems to be eternal...

Was this heart too fragile to be revealed?  
And like this... not a story without failing  
Can ever take effect in real life  
Live, lie, love, lose... codes set to fill our minds!
