Is it me, a memory of deepest love?  
Distant voices prayed for me...  
After the suffering I can't believe I am alive  
I faded love for you...

I roam into the night sky - Neverdawn  
Like the light our love now gone  
I fantasize - I see a dead sun  
No more shining for our love - Neverdawn

Step into this dark dominion - the gray sky

Like lovers sun and moon collide  
Still no dawn reveals - it's time is far away  
I faded love for you...

I roam into the night sky - Neverdawn  
Like the light our love now gone  
I fantasize - I see a dead sun  
No more shining for our love - Neverdawn
