When night falls over Hellgium
When darkness gains its force
The Darkest Fullmoon Rises
And greets the Horned one with pride
Our Hellgium's legions ride out
For their dark protective stride

The Dark Fullmoon Rises!!!
Hellgium united as one!!!
Fighting Flemish extremists
That want to split our country

They're racist, ugly and some are gay
Separatists, run away!
With king Albert on our left
And prins Filip on our right side
The Darkest Fullmoon Rises
And our Hellgium's legions fight!
